Summary

Third-year Computer Science and Engineering student at NIT Calicut passionate about developing impactful software solutions and intuitive digital experiences.

Education

National Institute of Technology Calicut, Kerala, India
B.Tech in Computer Science and Engineering
CGPA: 6.24/10

Murari Chand College, Bangladesh
HSC — GPA: 5.0

Blue Bird School, Bangladesh
SSC — GPA: 5.0

Achievements

ICCR Scholarship

- Fully funded scholarship by Government of India
- Covers tuition, accommodation, and living expenses

Experience

Travel Consultant

- Managed clients and customized travel solutions
- Streamlined documentation workflows

Projects

RAG Chatbot | LangChain · FAISS · Gemini API · Python

- Built a production-style RAG pipeline for document Q&A with hallucination control
- Implemented ingestion pipeline with Gemini embeddings and FAISS persistence
- Applied hybrid retrieval (MMR + BM25) for better search relevance
- Designed prompt templates enforcing context-only responses
- Developed Streamlit UI with chat memory and citations

AI-Powered Smart Inbox | Google Gemini API · Python · Email Automation

- Developed an AI-driven email management system leveraging Gemini API for semantic classification and prioritization
- Automated inbox organization into academic, administrative, and opportunity categories
- Improved productivity by reducing manual sorting and highlighting high-priority emails
- Designed prompt workflows for consistent and context-aware classification

Timetable Reminder Bot | Google Apps Script · Google Sheets · Telegram Bot API

- Developed a serverless automation system to send daily class reminders via Telegram
- Implemented time-driven triggers for scheduled execution every morning
- Designed dynamic message formatting by parsing structured schedule data
- Built secure configuration using Script Properties for API credentials
- Enabled zero-maintenance deployment using Google Apps Script

Technical Skills

Languages: C, C++, Python, SQL
Tools: Git, Docker, VS Code, Jupyter
Concepts: DSA, OOP, DBMS, OS
